Rent your online training center for only £649 exVAT per month or a single training room for just £49 exVAT per day

The IT Training Institute, **IT Training Institute**, is an HTML5-based web application. There is no plugin to download, no software to install. The IT Training Institute provides high-quality audio, video, and screen sharing using the browser's built-in support for web real-time communication (WebRTC) libraries. WebRTC is a standard supported by all major browsers, including Microsoft™ Edge, Chrome, FireFox, Safari and Safari Mobile. For best results on desktop and laptops, we recommend Chrome or Firefox. For Chromebooks, we recommend the built-in Chrome browser. Compatible with Windows™, MacOS, Linux, Solaris™, iOS version 12.2+ and Android version 6.0+, our solution offers the following :

- Available in **English** and in French,
- **Ten** online rooms per account - your Lobby plus 9 virtual training rooms,
- **Reproduce** your offline organisation complete with room names,
- **Chat**: Send public and private messages,
- **Breakout Rooms**: Group users into 8 breakout rooms per training room for team collaboration,
- **Webcams**: Hold visual meetings,
- **Audio**: Communicate using high quality audio,
- **Polling**: Poll your users anytime,
- **Screen Sharing**: Share your screen,
- **Multi-user whiteboard**: Draw together.
- **Multi-user notepad**: Collaborate,
- **Share** Microsoft™ Office documents, LibreOffice documents, PDF's, images as well as YouTube, vimeo, ou Canvas Studio videos,

Infrastructure

check-square-o continue to offer training sessions and courses despite lockdowns,
check-square-o provide health protection for your staff, your instructors and your trainees,
check-square-o train people who are in quarantine or stuck at home due to industrial action.

IT Training Institute allows your customers to:

check-square-o **bring together employees** for training wherever they be on the planet,
check-square-o **save time and money** by avoiding travel and entertainement costs,
check-square-o **provide an identical learning environment** for those on and off-site.

IT Training Institute allows you trainees to:

check-square-o learn from home, from their place of work or from anywhere in the world,
check-square-o ask questions and get replies from the instructor in real time.

Distance learning support platform

Comes FREE with every online training center or training room rental !

Our distance learning support platform, **IT Training Support** is an HTML5-based web application which allows trainees to ask for help from their instructor with just two clicks of the mouse. Our solution offers the following :

- Available in **English** and in French,
- Compatible with MacOS, Windows™ and Linux,
- No firewall configuration required,
- A two-click solution - click 1 : the trainee downloads the client, click 2 : the trainee asks for help,
- Complete remote control by the instructor,
- File transfers, screen sharing, online demos and chat included,
- Crypted 4096-bit RSA and 256-bit AES communications.

Infrastructure

- Production server #1 : Virtualised - 4 vCore, 8 GB RAM, 160 GB SSD, 320 MB bandwidth.

Avantages

IT Training Support allows **you** :

check-square-o to provide your **instructors** an easy way to help trainees in difficulty.

IT Training Support allows **your customers** :

check-square-o to reassure their staff that will not be *alone* if they get into difficulties during the online training session.

IT Training Support allows your **trainees** :

check-square-o to get the same level of help as in a classroom environment.
